Interface name	Creating or deleting breakout interface
Method	PATCH

URI parameter	type	overview	remarks
cluster_id	string	Switch cluster ID	-
fabric_type	string	Device type	"spines": Spine "leafs": Leaf
node_id	string	Device ID	-

option parameter	type	required	overview	remarks
notification_address	string	×	Destination address to notify completion of operation	Saa "Aayyaahyanaya yagusaat fayyaat" ahaat
notification_port	string	×	Destination port to notify completion of operation	See Asynchronous request format sheet

URI /v1/clusters/[cluster\_id]/nodes/[fabric\_type]/[node\_id]/interfaces/breakout-ifs

message	code	body	type	required	Allow null	Allow empty array	overview	remarks
			object[]	0	×	×	List of the target breakout IF	Set breakout IF to create of delete. Don't specify both "add" and " remove" at the same time.
		ор	string	0	×		Operation type for the target breakout IF	"add": Creating breakout IF "remove": Deleting breakout IF When creating, specifying "spines" in fabric_type at URI parameter results in an error.
request	_	path	string	0	×		Breakout IF ID	"remove": "/" + "breakout IF ID for creating  "remove": "/" + "breakout IF ID for deleting"  - To specify multiple breakout IF ID, specify different op/path.  - Specify all the breakout IF IDs to be created to separate
		value	object	×	0		Breakout IF information	Required for creating. Setting it when deleting causes an error.
		base_if	string	0	×		Information on physical IF to be separated	-
		physical_if_id	string	0	×		Physical IF ID to be separated	-
		division_number	int	0	×		Number of Ifs to separate	-
		breakout_if_speed	string	0	×		IF speed after separation	-
response		operation_id o the "Frror response format" sheet for error	string	0	×		ID for acquiring information of asynchronous operation	-

Body uses JSON format.

Asynchronous response

message	code	body	type	required	Allow null	Allow empty array	overview	remarks	
	201	breakout_if_ids	string[]	0	×	×	Breakout IF ID list		
response	204	-	-	_	_	-	-		
	Refer	Refer to the "Error response format" sheet for error response
